

Title card: Aloha Home Show

Music; Slack key, local style

Shot of co-hosts: Jim Byxbee of Homeworks Construction & Kirsten Fujitani

Beauty shot of completed kitchen

Kirsten: "Many times, I go to a model home and really admire the work the designer did on the kitchens. I can see the result, but I would never know where to start."

Shot of designer, sitting with a laptop and sketch plans at a kitchen table.

Jim: Yes, so this segment will answer just those kinds of questions. In "How Did They Do That?" we'll take you from the design process to the finished product.

Before shot

Designer: I always love this part, when I get to look back at the before photo of the project.

The first step I like to take is to sit down with the client and discuss their needs in their kitchen. It's important to find out how much they use their kitchen, do they love to cook etc.

Shot of rendering

I start the design process with a sketch, add in details...

Shot of completed kitchen

... and the ideas come to life.

Coming Up slide

When we come back, we'll take a look at project timelines.
