

BUILDING A BETTER FUTURE TOGETHER

People may wonder, why a credit union from Alaska chose to come to Hawaii and merge with the Kunia Federal Credit Union?

It was simple. We recognized that the Waipahu community offered an opportunity to further the credit union's mission: To be for people, not profit.

We saw joining the Waipahu community as an opportunity to lend a hand when the going got tough, or to listen intently when our member needed to sort things out. A chance to be a part of the future of our community, through pulling together to further financial education and the benefits of the cooperation of many. Our staff, our members, their families, neighbors and businesses, all joining in Building Better Financial Futures.

Since our 2012 merger, we are amazed at the eagerness to learn. We see excitement in the eyes of graduating seniors taking part in our Get Real financial education workshops, and a sincere expression of gratitude when we are able to help a member manage finances.

We are proud that our credit union shares the values of the Filipino Chamber of Commerce; that through the efforts of our community, together, we seek to build a better future for everyone. Salamat sa oportunidad na inyong ipinagkaloo sa amin.

On behalf of the Matanuska Valley Federal Credit Union and our Kunia Community Office, we heartily congratulate President Bernadette Fajardo, and the 2016-17 FCCH Officers and Board of Directors.
