

BUILDING BETTER FINANCIAL FUTURES TOGETHER

Bridging our Member Ohana from Alaska to Hawaii

Five years ago our Alaskan credit union merged with the Kunia Federal Credit Union in Waipahu and people wondered why?

It's simple. We recognized that the Waipahu community offered an opportunity to further the credit union philosophy: To be for people, not profit, where each member is considered "ohana" and they are treated with trust, integrity and respect.

We share a history of work ethic. Matanuska Valley Federal Credit Union was formed by farmers who know what hard work is and today offers the strength and stability of 10 offices in Alaska and our first in Hawaii.

Our mission is to play an important role in the financial future of our members and community, wherever we are. When the going gets tough we lend a hand and listen intently even if our members just need to sort things out. We smile when our GET Real Financial Reality Fair students "get it" and takeaway a life skill.

Looking forward, the Financial Learning Place will give everyone the opportunity to learn to budget, save and build credit and confidently step toward building a better financial future for themselves and their families.

We are proud that our credit union shares the values of the Hawaii Filipino Women's Club; that through the efforts of our community, together we seek to build a better future for everyone.

On behalf of the Matanuska Valley Federal Credit Union and our Waipahu Community Office, we join the Hawaii Filipino Women's Club in celebration of its 63rd Anniversary and the 43rd Annual Terno Ball.
